

EVORA

Sustainability Reporting

For a more resilient built environment.

Impactful reporting to drive change

At EVORA, we specialise in crafting effective reporting strategies for organisations, empowering them to communicate meaningful sustainability outcomes and impacts to key stakeholders. Our mission is to help real asset investors use reporting as a powerful tool to improve their ESG (Environmental, Social, and Governance) performance.

Navigating through the wide range of corporate reporting frameworks can be overwhelming, and sustainability reporting, if not approached strategically, can drain internal resources and budgets. That's where our expertise comes in. By adopting a strategic approach to reporting, we ensure that your organisation confidently selects the frameworks that best align with your ESG strategy. We also help establish the necessary systems, processes, and infrastructure to streamline data collection and reporting on an ongoing basis.

Supported by Collaborative Expertise

Our team at EVORA possesses in-depth knowledge of the latest regulatory requirements and reporting frameworks, enabling us to produce best-practice sustainability reports and communications. Through our carefully crafted reports, we help clients to effectively convey their vision, performance, and progress with greater impact and transparency.

Combining our expertise with creativity, our reports go beyond mere numbers and statistics. We help integrate sustainability into brands, increasing awareness and improving perceptions among stakeholders.

Data-driven
High-quality, accurate reports from SIERA

Regulatory compliance
In line with requirements & frameworks

Stakeholder engagement
Convey sustainability goals & performance

A flexible approach, tailored to you

We develop a reporting approach that will add value to your organisation:

Benchmark	Strategy & Roadmap	Data Collection	Content Writing	Publication & Follow-up
<p>We research and compare your profile with others, in order to benchmark sustainability reporting practices.</p> <p>We also run a gap analysis on your last ESG report to identify areas for improvement.</p>	<p>We define the report scope and boundaries, including key material issues, stakeholder engagement activities and data collection.</p> <p>The reporting framework will be fully understood and requirements embedded into this. A reporting roadmap will set out the timeframe, key personnel and processes</p>	<p>We assist your data owners with the collection of information and performance figures from your operations, portfolios and supply chain.</p> <p>We provide the necessary templates and software to streamline this process.</p>	<p>We draft your report content and ensure that disclosed statements and performance data are fully compliant with the reporting criteria.</p> <p>We work with third-parties to assure the content in your report.</p>	<p>Our support continues after your report has been published.</p> <p>As well as monitoring the progress of your ESG framework and the feedback from your stakeholders, we also monitor ESG performance and advise on how to improve your next report, such as the addition of new indicators</p>

Trust EVORA Global for sustainable assets

We go beyond consultancy, serving as your trusted partner for sustainable real asset investments.

With our unparalleled **Collaborative Expertise**, we provide actionable insights that empower your real asset community to thrive in sustainable investment.

Our proven expertise in strategic consulting, climate resilience, net zero, sustainable finance, infrastructure, reporting, and social wellbeing ensure your investments are aligned with environmental, social, and governance goals for a secure ROI.

AUM

EVORA has been a strong partner as we continue to develop our ESG policy and actions. They have a deep understanding of the real estate markets; this was a critical piece in their support of our TCFD agenda as we seek to further embed ESG principles and climate resilience across all elements of the investment cycle.”
